Title: Department of Veterans Affairs (VA) Post-Separation Transition Assistance Program (TAP) Assessment

OMB Control Number: 2900-0864.

Type of Review: Extension of a currently approved collection.

Abstract: The PSTAP Assessment is administered by VA to assess how the TAP training for Transitioning Service members (TSMs) prepares Veterans for civilian life and its effects on long-term Veteran outcomes. This information collection request (ICR) is conducted once per year and is designed as two separate collections which include a Cross-Sectional Survey and a Longitudinal Survey. The survey population for the Cross-Sectional Survey includes all Veterans who meet the criteria at the time of fielding of having separated from the military at six months, one year, and three years prior to the date that surveys. Service members who participated in the Cross-Sectional Survey and voluntarily agreed

to participate in the Longitudinal Survey make up the Longitudinal Survey population. VA will use email and mail methods to administer the survey, limiting the burden on respondents. The surveys will be administered to gauge the long-term effectiveness of the Transition Assistance Program (TAP) by: (1) examining the relationship between attendance in TAP courses and the use of VA Benefits; (2) analyzing the effect of participation in TAP courses on the long-term outcomes of Veterans in the broad life domains of employment, education, health and social relationships, financial, social connectivity and overall satisfaction and well-being, and; (3) identifying areas of improvement for TAP and the broader transition process to guide training and/or operational activities aimed at enhancing the quality of service provided to transitioning service members, Veterans, their families and caregivers.

Affected Public: Individuals.

Estimated Annual Burden: 5,954 hours.

Estimated Average Burden Per Respondent: 18.5 minutes.

Frequency of Response: Annual.

Estimated Number of Respondents: 19,311.
